DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Boice (US 5,978,029) teaches of measuring visual characteristics of the input video signal (Note: In Column 12, Lines 8-18, Boice teaches that the statistics (in this case the picture complexity) are based on information provided in the picture. The picture complexity is based on visual characteristics, like the changes from dark to light throughout the picture. A picture that is all black would have a low picture complexity and the fact that it is black is a visual characteristic.); determining the coding difficulty level of an input video signal for each unit time (Note: Statistics produced for picture complexity, Boice, Column 12. Lines 8-18); determining a reference value for allocating coding bits on the basis of temporally b for the amount of coding bits b allocated for each unit time and related in advance to the coding difficulty level d of said input video signal for each unit time (Note: statistics for encoding system 1 are used as reference values for encoding system 2 so that analysis can be done, Boice, Column 12, Lines 19-26); determining an actual amount of allocated coding bits on the basis of the reference value and generating coded data by coding the input video signal for each unit time on the basis of said actual amount of allocated coding bits (Note: determine a new set of encoder parameters (i.e. amount of bits to be used), Boice, Column 12, Lines 39-47). However, Boice fails to disclose the specifics of the generation of the coded data as claimed. A further search was

conducted which failed to yield any prior art. Therefore, the prior art fails to teach or render obvious these limitations taken within the others in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dave Czekaj whose telephone number is (571) 272-7327. The examiner can normally be reached on Monday - Friday 9 hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mehrdad Dastouri can be reached on (571) 272-7418. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
